

# SITESHELTER HARD TOP SHELTER™

Are you looking for a cost **effective**  
**container** roof **solution**? Look no further ...  
Siteshelter have released the **Hard Top Shelter!**™

Siteshelter Hard Top™ is a fabricated steel shelter that is designed to mount on top of two shipping containers, protecting all your assets – both personnel and equipment.

## BENEFITS OF A SITESHELTER HARD TOP SHELTER™

### ABSOLUTE SAFETY

Complete structure is fully engineering to AUS/NZ Standards including fixings and tie-down.

### COST EFFECTIVE

sturdy design and engineering to last saving you money and time

### EASY SET-UP AND INSTALLATION

saves you time and money, while storing and protecting valuable assets

### FLEXIBLE

multiple uses and applications in a variety of work sites/work locations.

### PROTECTION

peace of mind with a 20 year guarantee on Roof and Frame Components

Siteshelter have released the Hard Top Shelter™ in order to give you a wider choice when considering your asset protection options. The Hard Top Shelter™ is a popular option where a steel roof cladding is preferred over a fabric covered option.
