CONTROLLING YOUR ENVIRONMENT™

Do you need...

- ✓ ***A shelter that really lasts?***
- ✓ ***A cost-effective, quality shelter?***
- ✓ ***The assurance of engineer certification for local authority and H&S compliance?***

About Us

Are you looking for temporary or permanent shelter? You can't beat a Siteshelter™ for premium quality and exceptional value.

Siteshelter's™ are fully engineer certified, giving you the assurance of H&S and council compliance. With a great range of widths, and with lengths to suit any container configuration, Siteshelter™ makes it easy for you to protect your assets. And because Siteshelters™ are made in Australia or New Zealand to strict QC standards, you know that what you are receiving is great quality and built to last in Australasia's demanding environment.

Don't hesitate – talk to us today about the Siteshelter™ that best suits your application.
